

# Probing for Antimalarial Drug Targets – The Old and The New

📅 Wednesday, October 29, 2025

🕒 9:30 IST / 13:00 KST/JST / 15:00 AEDT

Scan the Code to  
Register for Webinar

**Brad Sleebs, PhD**

- Principal Investigator, Cancer Research Center of Lyon, Centre Léon Bérard

## You Will Learn

- Cutting-edge models for characterising antimalarials at an early stage of development
- Approaches for identifying the mechanism of action of antimalarials
- Antimalarial drug targets essential for regulating Na<sup>+</sup> homeostasis

A recording of the webinar will be shared to all registrants. Participants can request a webinar certificate by contacting [Marketing@medchemexpress.com](mailto:Marketing@medchemexpress.com)
